Summary: The publication is a selective, subjective, and systematic review of 300 plus colleges and universities in the United States, Canada, and Great Britain.

(August 4, 2011)-The University of Minnesota, Morris has been included in the Fiske Guide to Colleges 2012. Colleges featured were chosen based on a broad range of subjects, including academic quality, student body, social life, financial aid, campus setting, housing, food, and extracurricular activities.

“Receiving this type of an accolade is always affirming,” says Bryan Herrmann, Morris director of admissions. “When an impartial entity identifies Morris’s strengths, it confirms our campus goal to provide an exceptional education at an affordable price—and a remarkable student life experience—is not only being fulfilled but also being recognized nationally.”

Compiled by former New York Times education editor Edward B. The college profiles seek to characterize the personality of each institution.
